A new Frontier is a font I created kinda by accident. At first I wanted to do a more playfull rounded font but I encountered many problems with that. I started experimenting with FontStruct and came up with this. I was trying to achieve a simple readable font. I wanted to make it interesting so I played around with rounding edges and adding small serifs. It ended up looking kinda spacey and like something that should be in a Science Fiction game or movie. I had to adjust my X heights several times before getting a more consistant look between the Capital letters and the lower case letters, but after enough adjustments I feel it has come together nicely.
